**How To Use:**

The diagram labels the parts of the device: Mouthpiece, Coil Cap, Coil, and Battery.

- 4 -

1. Turn on/off: Click the power button 5 times within 2 seconds. White light will flash 5 times.
2. Connect the atomizer to battery, green light will stay on for 1 second indicates successful connection.
3. Load/reload: Unscrew the mouthpiece and the coil cap. Put material into the coil (DO NOT STAB THE HEATING ELEMENTS). Screw the coil cap and mouthpiece back on. Press and hold the button and enjoy your vaping. Repeat as desired.
4. Adjustable voltage: Low - Middle - High.  
 ● White = Low ● Blue = Medium ● Green = High  
 To change voltage settings click the power button 3 times, continue this

- 5 -

to get to desired voltage setting. The working voltage outputs in waves after four seconds, from 2.5V to your desired voltage in cycles.

5. After use, press power button another 5 times within 2 seconds to power off.
6. To charge the battery use the micro USB charger that is included. The light will glow when it is charging. In around 95 minutes the battery will be fully charged, the indicator shuts off.

- 6 -

**To extend the life and reliability of this product:**

1. Please finish all the product in the bowl to prevent concentrate seepage through the coil to the top of the battery.
2. Use a cotton swab and alcohol to keep the top of the battery, bottom of the coil and the threads around the mouthpiece clean of concentrate.
3. The coil and base can be soaked in alcohol and left to dry.

- 7 -

**Protection:**

Safety Cutoff: If the power button is pressed continuously for more than 15 seconds, light will flash 8 times and stop working. Release the power button and then press the power button to continue vaping.

No atomizer: Green light flashes 3 times.

Short-circuit: White light flashes 4 times.

Low battery: White light flashes 10 times and stops working.

- 8 -

**Caution:**

1. After use, do not touch the heating chamber until it cools down.
2. Keep the device away from any environment involving strong acids, alkaline, combustible materials, water or any other liquid.
3. Do not store your device in a car.
4. If the device gets too hot in use, please stop using it for a while.

- 9 -
