To change voltage settings click the power button 3 times, continue this to get to desired voltage setting.

- 5 -

5. After use, press power button another 5 times within 2 seconds to power off.
6. To charge the battery use the micro USB charger that is included. The light will glow when it is charging. In around 90 minutes the battery will be fully charged, light will flash up 8 times and shuts off.

- 6 -

To extend the life and reliability of this product:

1. Please finish all the product in the bowl to prevent concentrate seepage through the coil to the top of the battery.
2. Use a cotton swab and alcohol to keep the top of the battery, bottom of the coil and the threads around the mouthpiece clean of concentrate.
3. The coil and base can be soaked in alcohol and left to dry.

- 7 -

Protection:

Safety Cutoff: If the power button is pressed continuously for more than 15 seconds, three lights flash 8 times and stop working. Release the power button and then press the power button to continue vaping.

No atomizer: The light flashes 3 times.

Short-circuit: The light flashes 5 times.

Low battery: The light flashes 10 times and stops working.

- 8 -

Caution:

1. After use, do not touch the heating chamber until it cools down.
2. Keep the device away from any environment involving strong acids, alkaline, combustible materials, water or any other liquid.
3. Do not store your device in a car.
4. If the device gets too hot in use, please stop using it for a while.

- 9 -
