- 2 -

How to fill the pod:
Remove the mouthpiece from the pod, put the material onto the quartz coils with your tool (DO NOT STAB THE COILS). Put the mouthpiece back on. The pod is ready.

How to use the Yocan X:

1. Turn on/off: Click power button 5 times within 2 seconds. White light will flash 5 times.
2. Snap the filled pod onto the battery. When the green light comes on, it's ready. Press and hold the button and enjoy your vaping. Repeat as desired.
3. Preheat Mode: Click the power button 2 times. Preheat function will run for 10 seconds with light on. When preheat is completed, the light will shut off. To stop preheat, press button another 2 times.

- 3 -

4. After use, press power button another 5 times within 2 seconds to power off.
5. Adjustable voltage: Low- Medium- High
 ● White = Low ● Blue = Medium ● Green = High
 To change voltage settings click the power button 3 times, continue this to get to desired voltage setting.
6. To charge the battery use USB type-c cable that is included.

During charge:
 <35%: White light
 35%-70%: Blue light
 >70%: Green light
 When it is fully charged, the green light will flash 8 times and then shut off.

To extend the life and reliability of this product:

1. Please finish all the product in the bowl to prevent concentrate seepage through the coil to the top of the battery.
2. Use a cotton swab and alcohol to keep the top of the battery, bottom of the coil and the threads around the mouthpiece clean of concentrate.
3. The coil and base can be soaked in alcohol and left to dry.

- 5 -

Protection:

Safety Cutoff: When the battery is on, if the power button is pressed continuously for more than 15 seconds, the light will flash 8 times and stops working.
 No Atomizer: Green light flashes 3 times.
 Short-circuit: White light flashes 4 times.
 Low battery: White light flashes 10 times and stops working.

- 6 -

Caution:

1. After use, do not touch the heating chamber until it cools down.
2. Keep the device away from any environment involving strong acids, alkaline, combustible materials, water or any other liquid.
3. Do not store your device in a car.
4. If the device gets too hot in use, please stop using it for a while.
